Archaeological, cultural, and historic resources that are identified and preserved. (9-A, 9-G)

Policies

COS-P9.1

COS-P9.5

When a project involves a resource that is listed on the County's Historic Resources Inventory, or as otherwise warranted through the California Environmental Quality Act process, require applicants to engage a qualified consultant to prepare an evaluation of potential archaeological, cultural, and/or historic resources that may be present on the project site. COS-A9.5

Prepare a historic context statement that provides necessary background information about historic, archaeological, and cultural resources and a framework for identifying and evaluating historic resources. The context statement should include the overarching significance themes, including native people, cultural significance of the region, and agriculture/ranching uses that may be associated with the county.
