Council Member Pope gave a brief description of the poles where there is a new pole with all PG&E equipment transferred over but the other utilities such as Comcast and AT&T equipment has not been transferred. Mr. Aliano stated that he had contacted DCD and Public Works regarding this matter. Unfortunately there isn't much the County can do after the permit process. The permits are pulled and utilities can then transfer the equipment. It is usually the last utility company to transfer to the new pole that removes the old pole. It is up to the companies as to when and what order they do the transfer.
