

Contra Costa County Green Building Material Resource List

The Green Building Material Display contains green building materials that you may be able to use for your homes. This brochure is to assist you with finding stores that carry green building materials.

This display was developed to promote the use of sustainable building materials and reduce the amount of materials landfilled. Display of these samples should not be construed as an endorsement of any specific product by Contra Costa County or as a recommendation to use one product instead of another. Information regarding the samples included in this display was obtained from the manufacturers and has not been verified.

For more information, please contact the Department of Conservation & Development at 925-335-1290 or visit our website at:
