

ePermits Center

The Contra Costa County ePermits Center was designed to provide citizens and contractors with a portal for searching record, contractor, and parcel information from the county’s application and permitting database as well as allow for online permit applications.

The ePermits Center can be accessed by going to www.epermits.cccounty.us

Home Page

Select what you would you would like to search for:

- Building tab will display all permit applications for residential and commercial projects
- Planning tab will will display select project applications
- General Information property search will display basic address and parcel information

Welcome to the Contra Costa County Conservation and Development

ePermits Center

To search general property information such as parcel number, legal description, etc., Building permit status or history and Planning application status or history, select from the search options on the bottom of the screen. To search information such as zoning and general plan, visit the [County's GIS website](#).

Licensed Contractors, Owner/Builders, applicants or applicant representatives must first complete a User Agreement before submitting an application on this site. Download an ePermits User Agreement [here](#). Following receipt of your User Agreement you will receive a user name and password by e-mail for ePermits Login.

- Apply for Building Permits
- Apply for Home Occupation Land Use Permit
- Pay fees*
- Check processing status
- Print your permit card
- Schedule inspections
- Check inspection time frames

Once registered, you will be returned to this page and may select one of the services listed in the boxes below by clicking on it.

***Please Note** that there is a 2.5% convenience fee charge on credit card transactions or \$3.00 for electronic check transactions under \$10,000.00 and \$15.00 for electronic check transactions over \$10,000.01 payable to third party payment processor.

Property Information Search

From Home Page,click Lookup Property Information

What would you like to do today?

To get started, select one of the services listed below:

<p>General Information</p> <p>Lookup Property Information</p>	<p>Building</p> <p>Search Applications</p> <p>Schedule an Inspection</p>
<p>Planning</p> <p>Search Applications</p>	

You can search by Address, Parcel Information or Licensed Professional (Contractor) by clicking on the drop down box to make your selection.

****To see application details of a record you will need to search on the Building or Planning tab.**

Look Up Property Information

Enter information below to look up property information from the County's building and planning permit database. Property information can be searched for by entering any of the following information:

- Address
- Parcel Information
- Licensed Professional (Contractors Information)

Use the dropdown menu to change the Search type.

Look Up by Address Look Up by Address ▼

Enter Street Number and Street Name only then click Look Up.

Building Permits General Search Screen

On the ePermits Center Home page, click on Search Applications in the Planning section

What would you like to do today?

To get started, select one of the services listed below

General Search screen allows you to search by permit number, permit type, street address, and contractor in one screen.

- If searching by specific permit number, you must have the full building permit number which is like BIXX13-000001. For building permits prior to 2010 the number will look like B1123456.
- If searching by street address, type in street number and street name only. The search will bring back all matches and you can select the address you are looking for.
- If searching by contractor, choose Contractor from the License Type drop down and type in the contractor's license number in the State License Number field.
- If searching for all application types in a date range, select the type from the Permit Type drop down.
- If searching by specific date range make sure to revise your start and end date.
- It is recommended that you use fewer search criteria if you do not get the desired search results.
