EDMUND G. BROWN JR., Governor
CHARLTON H. BONHAM, Director

November 10, 2015

Mr. David Brockbank
Contra Costa County
30 Muir Road
Martinez, CA 94553

Dear Mr. Brockbank:

Subject: Land Use Permit Amendment for Keller Canyon Landfill Company, Notice of Preparation, SCH#1989040415, Contra Costa County

The California Department of Fish and Wildlife (CDFW) has reviewed the documents provided for the subject project, and we have the following comments.

Please provide a complete assessment (including but not limited to type, quantity and locations) of the habitats, flora and fauna within and adjacent to the project area, including endangered, threatened, and locally unique species and sensitive habitats. The assessment should include the reasonably foreseeable direct and indirect changes (temporary and permanent) that may occur with implementation of the project. Rare, threatened and endangered species to be addressed should include all those which meet the California Environmental Quality Act (CEQA) definition (see CEQA Guidelines, Section 15380). CDFW recommended survey and monitoring protocols and guidelines are available at http://www.dfg.ca.gov/biogeodata/cnddb/pdfs/Protocols_for_Surveying_and_Evaluating_Impacts.pdf.

Please be advised that a California Endangered Species Act (CESA) Permit must be obtained if the project has the potential to result in take of species of plants or animals listed under CESA, either during construction or over the life of the project. Issuance of a CESA Permit is subject to CEQA documentation; therefore, the CEQA document must specify impacts, mitigation measures, and a mitigation monitoring and reporting program. If the project will impact CESA listed species, early consultation is encouraged, as significant modification to the project and mitigation measures may be required in order to obtain a CESA Permit.

For any activity that will divert or obstruct the natural flow, or change the bed, channel, or bank (which may include associated riparian resources) of a river or stream, or use material from a streambed, CDFW may require a Lake and Streambed Alteration Agreement (LSAA), pursuant to Section 1600 et seq. of the Fish and Game Code, with the applicant. Issuance of an LSAA is subject to CEQA. CDFW, as a responsible agency under CEQA, will consider the CEQA document for the project. The CEQA document should fully identify

Mr. David Brockbank

the potential impacts to the stream or riparian resources and provide adequate avoidance, mitigation, monitoring and reporting commitments for completion of the agreement. To obtain information about the LSAA notification process, please access our website at <https://www.wildlife.ca.gov/Conservation/LSA>; or to request a notification package, contact CDFW's Bay Delta Regional Office at (707) 944-5500.

If you have any questions, please contact Mr. Robert Stanley, Environmental Scientist, at (707) 944-5573; or Mr. Jim Starr, Environmental Program Manager, at (209) 234-3440.

Sincerely,

A handwritten signature in blue ink, appearing to read "Scott Wilson".

Scott Wilson
