Source Separated Reusable or Recyclable Materials
(Maximize recycling credit by separating concrete and other materials at the jobsite, in order to deliver to Approved Facilities that you confirm accepts specified material types for reuse or recycling).

Mixed Construction & Demolition (C&D) Debris
(Mixed C&D loads were only partially recycled and therefore the weight (either listed on or converted from amount shown on receipts) must be split into the Tons Recycled (B) and Tons Disposed (C) columns as follows:
* Loads taken to an Approved C&D Processing Facility are eligible for 65% recycling credit: 65% of Tons should be entered in Column B and remaining 35% should be entered in Column C.
* If facility IS NOT one of the Approved C&D Processing Facilities on the list, then 100% of the loads taken to non-approved facilities should be entered in Column C (Disposed).

Attach facility receipts, gate tags or other verifiable documentation for all materials reused, recycled or disposed.
