PREPARING FOR A POWER OUTAGE

What should you be doing?

Loss of power may last hours or days

**BEFORE**

- Check with the Community Warning System for updates and Register for alerts from cococws.us
- Update your contact information with PG&E pge.com/wildfiresafety
- Take an inventory of the items you use that rely on electricity
- Plan for your family and pet medical needs
- Keep mobile phones charged
- Identify backup charging methods for phones and electronics
- Store water and non-perishable food
- Install home carbon monoxide detectors with battery backups
- Know how to use the manual release on your garage door
- Keep gas tanks full
- Talk to your family and neighbors and share your plan

**DURING**

- Keep freezers and refrigerators closed
- Monitor freezer and refrigerator temperatures with a thermometer
- Use perishable food supplies first
- Use generators, stoves and grills outdoors away from windows
- Disconnect appliances and electronics to avoid damage
- Check on neighbors, animals and family

**AFTER**

- When in doubt, throw it out! Throw away food exposed to temperatures above 39 degrees for more than two hours
- Check with your pharmacist about refrigerated medications
