

How to Download Files from the ePermits Center

Go to <https://epermits.cccounty.us> and log in to your account

The screenshot shows the top navigation bar of the Contra Costa County ePermits Center. The header includes the county logo, the text "CONTRA COSTA COUNTY, CALIFORNIA", and "Welcome to the ePermits Center Department of Conservation and Development | 925-655-2700". A "Help & How To Guides" button is visible in the top right. Below the header, there are links for "Announcements", "Register for an Account", and "Log In". A secondary navigation bar contains "Home", "Building", and "Planning" tabs, with "Home" selected. Below this is an "Advanced Search" dropdown menu. The main content area is divided into two columns. The left column contains text about applying for permits, including instructions to register first and links to various guides. The right column features a dark blue login form with fields for "User Name or E-mail:" and "Password:", a "Login »" button, and options for "Remember me on this computer", "Forgot Password?", and "New Users: Register for an Account". A red arrow points to the "User Name or E-mail:" field. Below the login form is a "Help Guides" section listing various PDF guides.

Apply for **ALL** Building/Grading permits and Planning Applications here on the ePermits Center. Read the sections below before registering or applying.

Visit our [Applying for a Building or Grading Permit web page](#) before starting an application here to ensure you have all the information, necessary approvals and documents prepared for your project. All construction plans and supporting documents will be reviewed electronically and are required to be uploaded at the time of submittal. Review our electronic file guidelines prior to applying: [Preparing Files for Electronic Submittal \(PDF\)](#). Visit our [ePermits Center Help & How to Guides](#) link for information on our processes and navigation help.

Ready to apply for a permit? First, [register for an account](#).

- If you are a **Contractor/Contractor Agent**, log in after registering and add your CSLB license to your account. Follow our [guide](#) to learn how to connect a CSLB license after registering. You may apply for a building permit with the approved license after we review the license. Permit applications by contractors cannot be successfully submitted without first having a CSLB license connected to the user account.
- If you are registering as a **Property Owner, Property Owner's Agent or Design Professional**, log in immediately after registering and start your application.
- Register as a **Contact** if you are not one of the above and would like to be associated with an active application. After registering, submit a [request](#) to connect your online account with an existing application.

Applying for a planning project within the Unincorporated County?
[Register for an account](#) first then log in to start your application.

ePermits Center Features (log in not required):

- Check [building permit status](#) or [planning application status](#)
- **Making a payment?** Click Building or Planning above then search the application's site address or project number that starts with BI for building permits or CD for planning applications. [How to Make a Payment Guide \(PDF\)](#).
- [Schedule/Cancel Inspections](#)

Register first then log in to apply

Tips for Printing Approved Digital Plans and Files

- The reviewed and approved plan file for your records is secured with a password by our department. Printing is the allowed feature and you are not required to enter a password for the file. If you are prompted for a password, download the file to the pc and open with PDF reader software.
- The self service copiers at FedEx locations will not allow printing of secured files. You must ask the FedEx employee to print the plans for you.
- Mac users will first need to download the file to the computer and open the file with a PDF reader software. The built in PDF previewer for Macbooks will not allow for printing and will ask for a password.
- Free Adobe Acrobat Reader software can be installed on your pc to view the PDF files. <https://get.adobe.com/reader/>
- If the stamps or markup do not appear on your printed copy, make sure you have **Documents and Stamps** or **Documents and Markups** selected in the Comments & Forms settings.

- All plans shall be **printed in color and in its original drawing size for the field set.**
