

DOT-TO-DOT

All of us use water. Connect the dots to see one of our water loving friends.

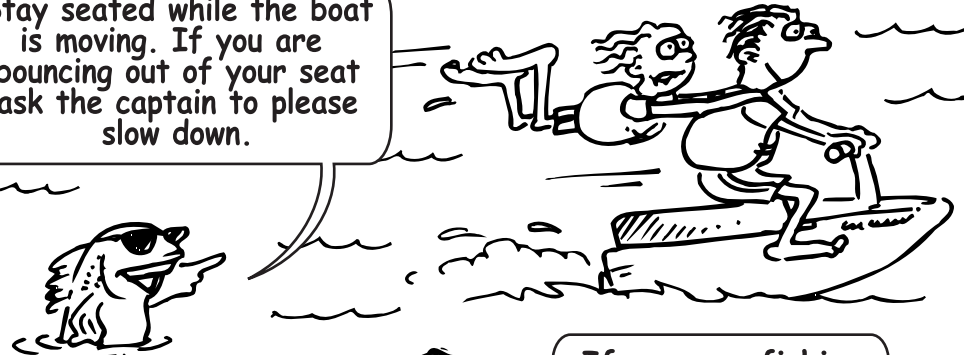

BOATING SAFETY

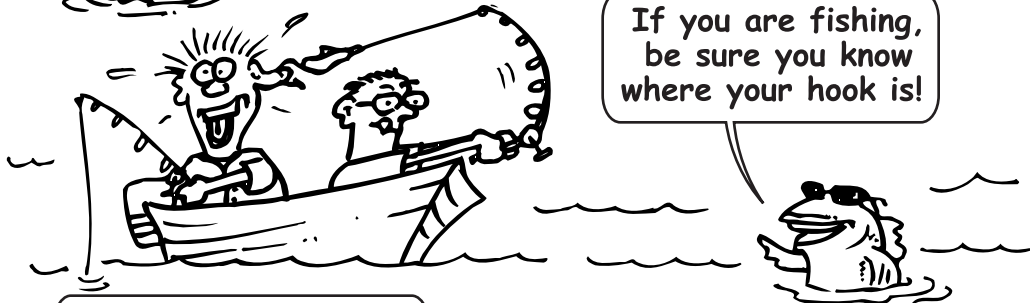

Always wear your life jacket while boating. Also, be sure to use sunscreen!

Stay seated while the boat is moving. If you are bouncing out of your seat ask the captain to please slow down.

If you are fishing, be sure you know where your hook is!

Ask your boat captain where to find the emergency gear and how to use it, especially the fire extinguisher and floating throw cushions.
