

Project Update For  
*Danville Boulevard and Orchard Court Complete Streets Improvement*

**Figure 1. Crews finishing concrete for the driveway and curb ramps at the Jackson Intersection**

**UPDATE:** Work at the northernmost driveway access to the Alamo Shopping Plaza is expected to be completed this week with the placement of AC paving. The driveway will remain closed until approximately the end of the week. Crews will then move on to preparatory work to being the next stage of construction which will include closures of 3 driveways along Danville Boulevard in front of Alamo Plaza. The next stage will begin with installation of construction barriers (k-rail) and traffic relocation and re-striping. Rain and upcoming weather conditions could affect the current schedule.

**About the project:** The Danville Boulevard and Orchard Court Complete Streets Improvement project will improve safety of vehicle, bicycle, and pedestrian traffic along Danville Boulevard by incorporating the following improvements along the corridor:

- Improving and widening existing sidewalks and providing bicycle facilities along this segment of Danville Boulevard.
- Providing curb extensions and curb ramps compliant with the Americans with Disabilities Act
- Improving pedestrian crossing by shortening the overall length of the crosswalks and providing pedestrian refuge areas in the road medians.
- Constructing a roundabout at the intersection to reduce vehicle speeds and conflicts while maintaining movement of traffic through the intersection.
- Reconstructing sidewalks that will accommodate many of the existing mature trees along Danville Boulevard.
- Providing landscaped greenspace along the project corridor and in the roundabout center.

# Contra Costa County Public Works Department

Brian M. Balbas, Director

Deputy Directors  
Stephen Kowalewski, Chief  
Allison Knapp  
Warren Lai  
Carrie Ricci  
Joe Yee

The project will also include drainage improvements, utility relocations, landscaping improvements, and electrical work. Access to roads and driveways will be maintained throughout the construction of the project.

## About Contra Costa County Public Works Department:

Contra Costa County Public Works Department (CCCPWD) maintains over 660 miles of roads, 150 miles of streams, channels and other drainage and over 200 County buildings throughout Contra Costa County. CCCPWD provides services such as Parks and Recreation, Sand Bag Distribution and Flood Control throughout unincorporated areas of Contra Costa County. To learn more about CCCPWD, please visit
