

Project Update For
Danville Boulevard and Orchard Court Complete Streets Improvement

Figure 1. Location of upcoming driveway closures starting Wednesday 03/29/23

UPDATE: New Driveway Closures Starting Wednesday 03/29/23. The above graphic displays the area of the driveway closures which includes the main entrance to Alamo Shopping Plaza as well as the two driveways to the north along Danville Blvd.

Work at the northernmost driveway access to the Alamo Shopping Plaza has been completed and the driveway has been re-opened to normal traffic. On 3/24/23, crews began work to remove and place new traffic striping along Danville Blvd in preparation of the next phase of work. Work this coming week will include installation of construction barriers (k-rail) and traffic relocation and re-striping.

Starting on Wednesday 03/29/23, the main entrance to Alamo Shopping Plaza as well as the two driveways to the north along Danville Blvd. will be closed to allow for the construction of new sidewalk, driveways, and the first phase of the traffic roundabout at Orchard Court. The driveways will remain closed for approximately 3 months to complete the work in this stage.

About the project: The Danville Boulevard and Orchard Court Complete Streets Improvement project will improve safety of vehicle, bicycle, and pedestrian traffic along Danville Boulevard by incorporating the following improvements along the corridor:

- Improving and widening existing sidewalks and providing bicycle facilities along this segment of Danville Boulevard.
- Providing curb extensions and curb ramps compliant with the Americans with Disabilities Act

Contra Costa County Public Works Department

Brian M. Balbas, Director

Deputy Directors
Stephen Kowalewski, Chief
Allison Knapp
Warren Lai
Carrie Ricci
Joe Yee

- Improving pedestrian crossing by shortening the overall length of the crosswalks and providing pedestrian refuge areas in the road medians.
- Constructing a roundabout at the intersection to reduce vehicle speeds and conflicts while maintaining movement of traffic through the intersection.
- Reconstructing sidewalks that will accommodate many of the existing mature trees along Danville Boulevard.
- Providing landscaped greenspace along the project corridor and in the roundabout center.

The project will also include drainage improvements, utility relocations, landscaping improvements, and electrical work. Access to roads and driveways will be maintained throughout the construction of the project.

About Contra Costa County Public Works Department:

Contra Costa County Public Works Department (CCCPWD) maintains over 660 miles of roads, 150 miles of streams, channels and other drainage and over 200 County buildings throughout Contra Costa County. CCCPWD provides services such as Parks and Recreation, Sand Bag Distribution and Flood Control throughout unincorporated areas of Contra Costa County. To learn more about CCCPWD, please visit www.cccpublicworks.org

CONTACT: For more information, please visit the project website page at www.contracosta.ca.gov/danvilleblvd . If you have questions or comments about the project, please call the Project Information Line at 800-406-4260 and leave your name, phone number, and the best time to reach you, along with your comments or questions, and a member of the project team will respond within 24 hours.
